Ashampoo Money 26 relies on you to input your transactions e.g., grocery purchases, manually. We encourage you to make it a habit to add them as soon as possible to keep your data up to date. This practice will also further raise your awareness of your finances and spending habits.

1. Dashboard

The dashboard provides an overview of all transactions for the currently selected account. If you haven't added an account yet, click "Add" to add one now.

"Date Range" allows you to adjust the timespan. Hover your mouse over the individual segments under "Allocation" to display the corresponding amounts in absolute figures. Hover the mouse over "Balance Development" to display the total sum for the affected time.

+ ADD NEW RECURRING

You can review recurring transactions e.g., rental payments, here. Click "Add New Recurring" to add transactions.

The screenshot shows the 'Money 26' application interface. On the left is a sidebar with navigation options: Dashboard, Recurring, Budgets, Saving Goals, All Transactions (+18,373.88), and Accounts (+). The main area is titled 'Recurring' and shows a table with columns: Start, End, Frequency, Reason, Amount, and Actions. A 'Date Range' box at the top right indicates '03/31/2025 - 04/06/2025'. A 'Create Transaction' modal is open, containing the following fields: Type * (Expense), Account *, Amount * (-0), Frequency (Every day), Start (04/04/2025), End, Category *, Reason, Receiver, IBAN, and Note. There are 'CANCEL' and 'SAVE' buttons at the bottom of the modal. A '+ ADD NEW RECURRING' button is located at the bottom center of the main interface.

Then, fill in the required information.

3. Budgets / Saving Goals

These features allow you to create fiscal goals limited in time and amount e.g., to save up a fixed amount every month.

Transactions that use the account and category associated with a budget or savings target will be auto-applied.

This section is the core of Ashampoo Money 26. It lists all transactions across available accounts and allows you to add your outgoing and incoming payments. Use the top settings to filter the list for individual entries. Click a column label to sort the table accordingly. Use the bottom buttons to add transactions.

At present, you can only add transactions to local accounts.

4.1 Custom table views

The controls above the table allow you to customize the table view.

↔ TRANSFER

You can review all transactions for the currently selected account here and apply the same settings and filters as in [All Transactions](#). Click the cogwheel icon to modify the settings for the current account or to delete it. Use the bottom buttons to add transactions.

At present, you can only add manual transactions to local accounts.

Export / Import

Use these buttons to export the current entries as a local Excel file or import an existing data file.

6. Feedback

Click the button to access our feedback portal and to give us your ideas and suggestions. Your feedback will help us to improve the application and to tailor it to your needs.

7. Settings

General

The current program version is displayed here. Enable "Send Analytics" to provide us with anonymous data about the way you use the program. Your data will help us to further improve the program.

Categories

Use the bottom button to create new categories and the buttons behind entries to edit/delete them.

Data backup

You can export your data to a local file here and import existing data files.

Bank connections

Manage existing and add new external bank connections here.

At present, you cannot add transactions to accounts linked with external bank accounts.
