

PRODUCT FEATURES

## FEATURE COMPARISON

Area property for 2D drawing elements, polygons, rectangles, circles,....

HOME DESIGN 8 | 3D CAD ARCHITECTURE 10 | 3D CAD PROFESSIONAL 10

PRODUCT FEATURES			
Project and building wizard	<b>Ø</b>		
		× ×	
Create multiple views in one project, 3D views, 2D views, sections, elevations, 2D graphic	Ø	Ø	
Create multiple buildings and floors in a project file	<b>Ø</b>	<b>Ø</b>	
Project viewer with building hierachy and floors with multiple layers	<b>Ø</b>	<b>Ø</b>	<b>Ø</b>
	Ø	Ø.	
Building components: Walls, Windows, Doors, Stairs, Ceilings, Supports, Chimneys,			
Stair construction, straight stairs, geometrical stairs, stairs with landing	<b>Ø</b>	<b>Ø</b>	<b>Ø</b>
Roof wizard with multiple predefined roof side types	<b>Ø</b>	Ø	
Extended roof function with extensions and roof openings	×		<b>⊘</b>
Merging roofs and editing of the timber construction	×	×	Ø
Dormers with 7 predefined dormer types	<b>Ø</b>	Ø	<b>Ø</b>
Roof windows / skylights	<b>Ø</b>		<b>Ø</b>
Roof-mounted solar plants	<b>Ø</b>		
Flat roof solar plants with elevated solar panels	×	×	Ø.
		<b>⊘</b>	
Walls, cavity walls, multi-layer walls, save your own wall types	<b>Ø</b>		<b>Ø</b>
Timber construction for walls , stud walls, incl. quantity export to PDF, RTF, Excel	×	×	
2D Drawing functions to finalize 2D floor plans and views	×		
2D symbol catalog to design your 2D views with electrical symbols, plumbing,	<b>O</b>	<b>O</b>	
Dimensioning of 2D views, section views and elevations	o o	0	Ø .
Automatic dimensioning for 2D floor plans, 2D top views	NEW	NEW	
Text, measuring functions, 2D guidelines	<b>Ø</b>		<b>⊘</b>
Automatic item text, mark your walls and windows with a unique item number	NEW	NEW	<u> </u>
Catalog with 3D-Objects for interior and exterior design	Ø .	Ø	Ø
Catalogs with textures and materials for your 3D design (e.g. roof tiles, bricks, etc.)	Ø.	o o	
Catalog with ready-to-use groups, garages, kitchenettes, garden homes,	Ø	Ø	<b>⊘</b>
Door and Window catalog, extended catalog with US style windows	<b>60</b>	NEW	<b>-</b>
Quantities for building elements and area calculation	Ø	Ø	Ø
Quantities, automatic area calculation and export as PDF, RTF, Excel,	×	Ŏ.	Ø
·			
Automatic facade area detection and export as PDF, RTF, Excel	×	×	<b>Ø</b>
Plan layout PlugIn, arrange multiple foor plans and views on a single sheet	×	<b>Ø</b>	<b>Ø</b>
2D DXF und 2D DWG Import und Export	×	×	<b>Ø</b>
Import and export of 3D objects in third party file formats, FBX, 3DS, OBJ, SKP, COLLADA,	×		Ø
	o o		
Saving 2D and 3D views in various image formats, *.jpg, *.png,*.bmp, *.gif		<u> </u>	
2D/3D Dimensioning, 2D / 3D Guidelines, Measuring	<b>Ø</b>	<b>Ø</b>	<b>⊘</b>
Window contruction PlugIn: Create your own window types	×	×	
Modelling functions for custom 3D objects and construction details	×	<b>Ø</b>	
3D Substraction solids, create custon openings and cut-outs in your 3D model	×	o o	
· · ·			
3D terrain design with height points, terrain elements (beds, terrace, path,), etc.	<b>Ø</b>	Ø	
Faster and future-proof with native 64-bit support	<b>Ø</b>	<b>Ø</b>	
Easier and more intuitive with ribbons	<b>Ø</b>	<b>Ø</b>	
US Standard scales for 2D views added to our view property dialogs	NEW	NEW	<u>_</u>
os standard states for 25 views duded to our view property dudings		•	_
